

Dear Sponsor of the STEAM Horizon Award,

My name is Nicholas Flowers and I am from Hopedale, Nunatsiavut. I am delighted to have been a recipient of the 2020 STEAM Horizon Award, and there is no doubt that this scholarship will greatly assist my future studies at Grenfell Campus, Memorial University. Starting in the Fall of 2020, I will begin my studies for a Bachelor of Science at MUN as I attend a 4-year program of Environmental Science.

Regarding the costs of travel to Newfoundland from the North coast of Labrador while attending Memorial University, this award will reduce the financial stress so that I can focus on my post-secondary education. This will have a huge positive impact as my future goals are to study renewable energy sources by giving back to my community of Hopedale in such a way that reduces environmental impact.

Thank you for your generous support, nakummek!

Sincerely,

Nicholas Flowers
