

Dear Sponsor of the Building Brighter Futures award,

My name is Mariam Imak, I am a student at a post-secondary institution called Nunavik Sivunitsavut. This is my third year of Cegep and I am now in the program of my dreams that is tailored to Inuit culture and historical past from the Inuit perspectives. I am honored to have the chance to learn from fellow Inuit.

This support helps me in achieving my goals to one day become a full time stick and poke tattoo artist, by doing this I will be able to revitalize my culture and help uplift the Inuit community through learning about and giving them their traditional markings.

I would like to continue my studies and learn more about my Indigenous lineage so that I have a better understanding of myself so that I can better help my community.

Thank you for your generous support.

Mariam Imak
