

Dear Sponsor of the CN Indigenous Student Bursary,

I am incredibly pleased and grateful to have been rewarded the CN Indigenous Student Bursary. When it comes to financing my studies, this award will help me continue with my studies with much lessened financial hardship. Most importantly, this bursary gives me the confidence and push to do my best regarding my grades and other aspects of my studies. Being awarded this bursary tells me that my efforts are worthwhile and can be awarded, which makes the difficulties of Post-Secondary Education worth facing.

I am in my second year at Dalhousie University studying Applied Computer Science. For me, it has been a great and challenging experience. I think that post-secondary education is a definitive medium for defining and establishing yourself and your career ambitions. Although I am not certain what my future career would look like, I believe my education will create a foundation for me to grow as a person and shape my career. With this bursary, you helped me get closer to realizing these aspirations.

Thank you for your generous support,

Donovon Bussey
