Re: Sponsor of the Building Brighter Futures: Bursaries, Scholarships, and Awards program

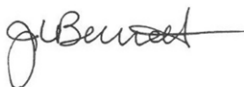

Dear Sponsor of the Building Brighter Futures: Bursaries, Scholarships, and Awards program:

I am writing to say *chi miigwetch* for the generous bursary I received for my graduate studies. I am a Band member of Wiikwemkoong Unceded Territory in Ontario, but I currently live and work in Milwaukee, Wisconsin as a professionally licensed engineer in the environmental remediation industry. I am also enrolled full-time at the University of Wisconsin – Milwaukee in an Executive Master of Business Administration (MBA) program (graduating January 2022). This bursary has made a significant impact on my tuition fees for my program, whose fees are much greater than their Canadian counterparts, and alleviated my need for high-interest-rate private loans.

The Executive MBA program that I am in is specifically curated for working mid-level managers like myself. The program is designed to let me continue working on my current career path as an environmental program manager while attending classes on the weekend. I am currently working toward becoming a client program manager for remediation sites. My program is designed to give me more managerial accounting skills and general leadership skills. My plan is to steer my career back to Ontario and to work for First Nations in the environmental remediation field.

Thank you for your generous support.

Sincerely,

A handwritten signature in black ink, appearing to read "Jennifer Bennett". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

Jennifer Bennett, P.E.
