Dear Dudah Cares,

I am writing to thank you for your kind and generous support of my studies through the disbursement of. Dudah Cares (DML) award. I am enrolled in my third year at the College of Arts and Science in the Department of Indigenous Studies. It is my desire to obtain my degree in Indigenous Studies as well as a degree in Indigenous Social Work. I am still deciding on whether I will pursue a masters or a PhD in either field. I want to affect change for the youth, young adults, adults and elders of my community.

As a student with physical, learning, and medical disabilities, costs associated with my education are higher than most. And this bursary will ease the stress of those costs. Thanks again for your generous support. It means a lot! My grandmother who raised me would be so proud! I am the first one in my family to get a university education.

Sincerely Yours,
Eileen Lennie-Koshman
