

“An elder once said, be dedicated towards showing your gratitude to others. Gratitude is medicine ~ fuel for spiritual nourishment”

It is with the above in heart & mind that I wish to express my gratitude towards Canadian Heritage for providing me financial support upon my educational journey. Your generosity has provided me with an immense amount of freedom from financial burden while pursuing my studies.

To give you a brief glimpse into my story, I am a Metis student at the Alberta University of the Arts majoring in “Advertising Design”. My vision is to take the experience gained on the path of obtaining this degree to be a leader in organizational design, working with groups who are committed to healing, connecting & progressing humankind.

I am also looking to seek further education in psychology to work as a practitioner who helps others to work through trauma & bring themselves back into alignment with their unique gifts & purpose in life.

Thank you again for your generosity & support.

~Brendan Hamilton
