

Dear Sponsor of Aboriginal Health and Human Resources Initiative (Medical and Dental Awards) Scholarship

I'm Monica Rumbolt, a recent awardee of the program you've supported called Indspire's Brighter Futures: Bursaries, Scholarships, and Awards. I will graduate from high school in 2022, and I'm already enrolled in Memorial University's new Labrador Institute to pursue a bachelor's degree in nursing. This curriculum lasts for four years and is quite expensive. As I work two part-time jobs to help pay for the expense of school on top of my rent, the cost, in addition to the course load, has caused me a lot of worries. Since it ensures that I may continue to work toward my future without experiencing as much financial hardship, receiving this scholarship makes me feel really honored and even makes me cry with delight. As there is a huge demand for nurses in the Labrador Grenfell Health District, I wish to stay there and eventually advance to the position of doctor. This was made possible by your generosity, for which I will always be thankful.

Warm regards,

Monica Rumbolt
