

Dear Sponsor of the Suncor Energy Foundation:

Hello, my name is Teddy Trudeau, and I wish to thank you for generously sponsoring this award! I am an indigenous third-year student at Laurentian University here at Sudbury, Ontario. I am studying mechanical engineering, where I will hopefully be able to graduate and then join the workforce as an engineer. Ideally, I'd save some money before finishing school and possibly invest it, and eventually do some travelling. The money you've given me will go a long way to support those dreams, and also be able to financially assist my family in the event that they need it.

Have a great day!

Teddy
