

Dear sponsor of the Building Brighter Futures: Bursaries, Scholarships, and Awards,

I am more than thrilled to be sending you this thank you letter. I would like to thank you for selecting me for this award. It is such a honour to receive this award, not only does it bring me pride but it also helps me to continue following my dreams and ambitions to do what I always wanted to do in life. I am attending the College of the North Atlantic, Ridge Road campus located in St. Johns, Newfoundland. I am completing my first year of Engineering and hope to go on and become a mechanical engineer. With this sponsorship it really helps me in my financial state as a student far away from home. It allows me to be able to continue my studying and learning comfortably without having the worries of paying rent, buying groceries and medication as I am a type 1 diabetic. With this sponsor I can finish schooling and have a job opportunity in the place I am more then proud to call home, Labrador. Not only will I have a job where I can stay close to home, but I can practice my indigenous culture doing all the things I love such as fishing, hunting and anything else I can get from this beautiful land I call home. I can not express how thankful I am for this opportunity; it means the world to me and my future.

Thank you for your generous support,

Corey Normore
