Attn: Cenovus Indigenous Scholarships

Dear Sponsor of the Cenovus Indigenous Scholarships,

I would like to express my sincere appreciation in being selected as a recipient of the Cenovus Indigenous Scholarship. I am enrolled as a third-year student at the University of Fredericton within the Master of Business Administration (MBA) program.

Working in philanthropy at a post-secondary institution, I assist donors in the creation of student awards and see the strong impact this has on the livelihood of our students. I am so incredibly grateful to be on the receiving end of one such award. As a full-time working mother of two young children (5 and 7 years old) my days are very full! This award has reduced the burden associated with the costs of financing my education and will have lasting impacts for me and my family.

As I continue my MBA, the intent is to move into a leadership role within the philanthropy sector. My well-developed skill set in combination with a newly acquired advanced education, lend well to a senior level role focusing on social enterprise, community investment and external relations. To date, I have found the education to be incredibly rewarding and look forward to what opportunities, network connections and career advancement will unfold within my final year of school.

Thank you for your generous support, it is contributions such as these that have lasting impact for students such as myself.

Sincerely,

*Corinne Longoz*
