Six Nations of the Grand River,
Ohsweken, Ontario NOA 1M0

Dear sponsor(s) of Indspire's *Building Community: Entrance Scholarships for Indigenous Law Learned – Renewable*.

Thank you for your very generous award!

I have recently started my second year of law school at the University of Ottawa, Common Law Section in the Juris Doctor Program. This award will most definitely assist in my cost of living during the school year. I am currently on education leave and will not be able to provide myself with a steady income. This generous award will provide me with the proper assistance I need so that I can focus on my studies and strive to be the best possible student I can be. Thank you so much.

Throughout my first year, I learned about the many different areas of law in Canada. I previously mentioned I had a strong passion for Indigenous and Aboriginal law, constitutional and business law. For the most part, those areas are still areas I hope to practice in. I am driven to practice in an area that will create the most systemic, substantial, and positive changes for Indigenous people across Canada. I want to utilize my legal education to better position our people for future generations to come.

Nakurmiik for your generous support!

Kind regards,

Christian Spence
